

HOW TO MAKE YOUR OWN PERCUSSION INSTRUMENT

SUPPLIES:

- 2 paper plates
- A handful of paperclips or other small hard objects of a similar size, like beans or rice
- 1 stapler
- 1 pair of scissors or a hole punch
- Markers, ribbon, and stickers or other things to decorate!

STEP 1:

Put your paperclips onto one paper plate.

STEP 2:

Put your other paper plate on top of the first paper plate, with the small hard objects inside. Using the stapler, staple the edges of the two plates together, stapling all the way around the edge.

STEP 3:

(If you have ribbon) Using your hole punch, or with an adult's help using scissors, punch holes around the edge of the plates.

STEP 4:

(If you have ribbon) Cut the ribbon and cut enough pieces for as many holes as you punched.

STEP 5:

Use your markers and stickers to decorate your percussion instrument. Start making music with your percussion instrument by shaking it, or hitting it with your hand!

Don't forget to share your creations.
